

International Risk Management

Creative solutions for protecting possessions throughout an international assignment

TheMIGroup Risk Management program provides the expatriate with the opportunity to obtain seamless coverage of their possessions during transit, while overseas and during the journey home or to another assignment.

■ International Transit Insurance for Household Goods

TheMIGroup offers a policy that provides coverage for most of the things used in or around people's homes, including household and personal goods, antiques, fine arts and automobiles. The policy is the best the market has to offer, and includes pairs and sets and mechanical derangement.

■ Long Term Storage Insurance for the Goods Left Behind

Possessions left behind during an international assignment should be properly insured while in storage. TheMIGroup Storage Insurance covers the complete process, from the packing and collection to the warehouse to local redelivery from storage and unpacking.

■ Personal Property Insurance Abroad

This program is specifically designed for the Expatriate Executive while on assignment overseas. Seamless insurance coverage switches from Marine Transit to Personal Property insurance after delivery of the goods to the new overseas residence. At the end of the assignment, the insurance reverts back to Marine Transit for the duration of the repatriation process.

■ Accompanying Baggage Insurance

Covers loss of baggage while in transit to an assignment.

■ Student Property Insurance

Covers loss of personal property of student children of the executive expatriate while away at school or college. Includes personal clothing, sports equipment, musical instruments etc.

■ Vacant Residence Insurance

Provides comprehensive property and liability coverage for expatriate homes when left vacant due to relocation or reassignment.

■ Foreign Automobile Insurance

Foreign, state owned auto insurance plans are usually restrictive and often expensive. The policies are rarely in English. TheMIGroup Foreign Auto Plan provides the opportunity to secure Short or Long Term coverage while overseas. [Subject to some restrictions.]

■ Homeowners and Automobile Insurance in North America

Foreign national executives on assignment in North America need proper insurance coverage for their home and automobile. American or Canadian citizens returning from an overseas assignment may experience complications in re-establishing suitable coverage.
